DETAILED ACTION

This Office Action is in response to the amendment filed 7 September 2006.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims:

Claims 31-37 are cancelled.

Allowable Subject Matter

Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-7 are allowable because prior art does not disclose alone or in combination along with the limitations of the independent claim such as the impurity element contained in the transparent electrode is diffused into the semiconductor having the interface with the transparent electrode, causing contact resistance between the semiconductor and the transparent electrode to decrease.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2822

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
